

JEBISHA J

UI/UX Designer

| 7448453227 | jebisha404@gmail.com | linkedin.com/in/jebisha-j-7b9588343 |

PROFESSIONAL SUMMARY

UI/UX Designer with a strong passion for creating intuitive, user-centered digital experiences that solve real-world problems. Proficient in user research, wireframing, prototyping, and visual design, with a focus on transforming complex ideas into simple and engaging interfaces. Committed to continuous learning, innovation, and meaningful products that enhance user satisfaction while supporting business goals.

UI/UX CASE STUDIES & PROJECTS

Quick Pay Favorites – Google Pay

- Identified friction in repeated QR scanning for frequent payments through user research.
- Designed a Quick Pay Favorites widget allowing one-tap access to recurring merchants.
- Reduced user interaction cost from 6 steps to 2 — improving payment speed and UX.

Safe Route Mode – Google Map

- Researched safety concerns of women navigating alone at night in unfamiliar areas.
- Designed a Safe Route Mode feature using safety indicators: lighting, crowd density.
- Delivered wireframes, user flow, and high-fidelity prototype with usability testing.
